

# Emmanuel Ayeni

software developer

As a passionate full-stack web developer and machine learning enthusiast, I bring a strong foundation in both frontend and backend technologies. My expertise includes proficiency in languages such as HTML, CSS, JavaScript, and backend frameworks like Node.js and Django. On the machine learning side, I have hands-on experience with frameworks like TensorFlow and working progress on pytorch

## WORK EXPERIENCE

### Data Analyst Internship Julieth AI Technologies

01/2024 - 06/2024

*Achievements/Tasks*

- Data gathering
- Web scraping
- Data preprocessing
- Data analysing and virtualization

## PERSONAL PROJECTS

### Django Ecommerce

- django ecommerce using paypal as the payment method

### Task management System

- performing task to earn points

### Auction system

- site where auction and is bidding is made

### Social media System

- chatting system to interact with friends

### chatbot

- using natural language processing and neural network

### recommendations system

- a recommendations system for find movies with top ratings to watch

## EDUCATION

### Computer science

Nassarawa state university / keffi Nigeria

11/2021 - Present

## SKILLS

pytorch tensorflow python css html  
django nodejs react javascript excel  
microsoft office mongodb sql  
problem solving data structure and algorithm  
IT support pytorch  
computer hardware and repair

## LANGUAGES

English

*Professional Working Proficiency*

French

*Elementary Proficiency*

yoruba

*Native or Bilingual Proficiency*

## INTERESTS

Trading coding football
